6. DATES OF CHART LATEST EDITIONS: Remember NOAA Raster Navigational Charts are free on line. The web address below is an excellent source for charts to attach to your Chart Updating & ATON reports because they are always update. The site below is the correct site.

<http://ocsdata.ncd.noaa.gov/onlineviewer/> This is a correction from last month. Disregard this wrong site www.nauticalcharts.gov/viewer. D11 Northern Region has 1 New Chart Editions in 2008. We had 4 New Chart Editions in 2007. See “Dates of Chart Latest Edition” Table for D11 Northern Region is on page 5.

Chart Information			Traditional		Charts-on-Demand / RNC	
NUMBER	TITLE	SCALE	ED.	DATE	ED.	DATE
18654	San Pablo Bay	40,000	44	January /08 (NM:1/26/2008) (LNM:1/15/2008)	44	January /08 (NM:1/26/2008) (LNM:1/15/2008)

Charts with edition dates prior to those listed in the table on page 4 are obsolete for use in navigation and Chart Updating activities. The date of a chart is of vital importance to the navigator and the aid verifier. When charted information becomes obsolete, further use of the chart for navigation may be dangerous. Natural and artificial changes, many of them critical, are occurring constantly; and it is important that we in the Auxiliary use the most up-to-date charts.
